SUMMARY

.NET Developer with 2 years of experience in building web applications using .NET and Angular. Skilled in C#, SQL, and Angular, with a track record of delivering projects on time. Strong problem-solving abilities and a commitment to quality and efficiency in every project.

WORK EXPERIENCE

NeoSOFT Technology

June 2022- Present

Project 1:JMB Heavy Cargo Costing

- Developed and implemented a backend system using ASP.NET Core, Web API, Angular, and SQL for a shipping costing application.
- Led the project from inception to deployment, delivering it on time and meeting all project requirements.
- Designed and optimized database schemas, ensuring efficient data storage and retrieval.

Project 2:Tank Agency Solution Project

- Worked on a shipping management system focused on import and export operations.
- Utilized ASP.NET Core, Web API, Angular, and SQL to develop and maintain the application.
- Streamlined data processing workflows, improving overall system performance.

Project 3:Healthcare Management System

- Contributed to the development of a healthcare management system with ASP.NET Core, Angular, and SQL.
- Focused on creating user-friendly interfaces and improving data handling processes.
- Assisted in deploying the system to UAT, ensuring compliance with healthcare standards and requirements.

TECHNICAL SKILLS

- | | |
|---------------------|-----------------------|
| • C# | • ASP.NET MVC |
| • Entity Frame Work | • LINQ |
| • ADO.NET | • Angular |
| • SQL | • Version Control/Git |

EDUCATION

- **Master of Science in Computer Science(Pursing)**

Ramniranjan Jhunjhunwala College of Arts. Science & Commerce

- **Bachelor of Science in Information Technology**

K.J.Somaiya College of Science and Commerce

ACHIEVEMENT

- EMPLOYEE OF THE MONTH
